DELIVERIN' METAL SINCE 1991

BIO

The band initially started out as a solo project of guitarist Vlad in 1991. During that year, Clepi joined the band as vocalist and Leo as drummer. In this format was released the "Another Hell" demo in 1993 and then, plus Dan Chirap on bass, the "Unholy Doom Creation" demo in 1995.

During these years the band toured all over the country, thus leaving a mark in the Romanian Metal Stage. After playing the last confirmed gig in '95, Mercy's Dirge disbanded.

In 2015 the band reunited with founding members Clepi and Vlad, alongside new guitarist Nistor.

In 2016 the band found a bassist and a drummer. The band started gigging all over the country and released in 2018, "Mercy's Dirge" EP and "Live, Raw & Relentless" LP.

"...I must say that they had a really nice sound, a very good voice and it was pretty "wow" because the band was on hiatus a couple of years and it's nice to see a successful comeback. They just released a new material called Live, Raw & Relentless – LP 2018. I might say that this band was my favorite on the 18th of May. Very good sound with a voice which didn't get tired during the gig. I wish them the best of luck from now on!"
